BASIC STORAGES

Basic is an optimum and economical system of cabinets and shelves, with body available in three colours: aluminium, white and anthracite. The cabinets are available in the width of 800 mm and in 30H heights. The range is complemented with special cabinets such as a wardrobe, a tambour cabinet and a printer stand. By adding clear or frosted glass doors, one can build display cases. Simple construction and classic design make it possible to combine this furniture with other systems.

Basic pedestals can be mobile or fixed. The body of the pedestal is made of MFC available in three colours: white, aluminium or anthracite. The top drawer contains a removable pencil case for arranging office supplies. Among fixed pedestals, we offer pedestals for extending desk space with or without overhanging top.

A pedestal with a suspension files drawer has a mechanism adjusting the width of the frame so that one can hang files of various sizes

KK774 X 2 PEDESTAL 402/800/740 (15 7/8" x 31 1/2" x 29 1/8")

BASIC PEDESTALS

STANDARD storage cabinets represent a group of multi-purpose cabinets for various applications. The modular build and a wide range of finishes make it possible to adapt the storage units to the space and function. **STANDARD** line includes storages and upper sections with open fronts, wing doors, tambour doors, sliding doors or glass doors. If you need to store large quantities of documents, we recommend cabinets with metal shelves or suspension files cabinets. The **STANDARD** line also has managerial cabinets designed for setting up personalised work stations, and also mobile cabinets which can be easily rearranged in a given interior depending on current needs.

A6106 X 2 STORAGE 1200/432/2185 (47 1/4" x 17" x 86")
A6506 X 1 STORAGE 1200/432/2185 (47 1/4" x 17" x 86")

PRO STORAGES

PRO line is the high-end solution offering unlimited options for arranging office space. The design of the cabinets and the materials used make it possible to create pleasant and functional spaces. Storage cabinets are available in five widths and four heights. A wide colour palette and the possibility of making diverse colour configurations gives one great freedom in designing the interior. All models can additionally be fitted with metal bases and wide-angle hinges to reinforce the cabinets and facilitate their daily use.

The back of the **PRO** cabinet is made of 18 mm MFC with PVC edge. The cabinets may be levelled from the inside. As an option, the **PRO** cabinets can be fitted with a metal base

TAMBOUR STORAGES are an effective solution wherever tight space is a challenge. They were designed for interiors where it is necessary to effectively use a limited area. The front tambour comes in three colours: black, aluminium and white. It is fitted with a patent lock and a strip handle. In addition, the storage cabinet can be set on a metal base to reinforce its structure. **TAMBOUR STORAGE** cabinets are available in **STANDARD** and **PRO** lines.

SLIDING DOOR STORAGES are used in small spaces.

Owing to the self-closing system, the sliding doors are quiet and save space. Storage units are available in four heights and three widths. The doors are fitted with patent locks. The STANDARD line cabinet is equipped with a handle whereas in the PRO line, handles are optional accessories.

SLIDING DOOR STORAGES

SLIDING DOOR STORAGES represent a group of storage units distinguished by their simple form and design, but nevertheless universal and flexible in application. The set consists of a ZS01 cabinet with the front made of metal pattern combined with HPL laminate, a ZS02 cabinet with the front made of MFC covered with glossy HPL laminate available in nine vivid colours, and a ZS03 cabinet with the front made of MFC available in pastel and wood finishes. The interior of a cabinet may be fitted with drawers. The sliding doors have a metal self-closing mechanism facilitating soft closing.
