WARDROBE

A **WARDROBE** is an essential closet for any office. The STANDARD and PRO lines include four wardrobe models differing in dimensions and interior arrangement. The finishes and sizes of the wardrobes match the PRO and STANDARD ranges and make it possible to integrate the wardrobes in every room.

GLOSS
DOOR
STORAGES

GLOSS STORAGE units represent a range of cabinets with high-gloss HPL laminate finish on fronts. There are ten different colours available. They range from low-key grey, graphite to vivid green and pink. The body of the cabinet can be black, aluminium, white or anthracite. Such a colour scheme makes it possible to combine the cabinets with other components of the PRO or STANDARD line. The cabinet doors are fitted with a patent lock and a push-to-open system. Optionally, can be equipped with glass top.

GLASS DOORS complement the range of STANDARD and PRO storages.
There are two types of glass available: clear and opaque, with an aluminium frame,
or with no frame. Glass elements can be fitted in cabinets and bookcases of 400 mm
and 800 mm in width as well as 30H and 50H in height, creating display cabinets
which make excellent supplementary equipment of offices or exhibition places.

SPECIAL STORAGES are a group of multi-purpose storages which can be used in any situation: for ad hoc meetings, or individual work. A characteristic feature of these storages is that they can be adapted to various work styles and individual needs of the user. They can be combined with PRO or STANDARD storage units.

LOCKER
STORAGES

LOCKERS are an answer to a growing need for optimising the office space. Such units often replace pedestals in large offices. The locker is mainly designed for storing personal artefacts. Lockers can be assigned to specific individuals, and correspondence slots are an additional advantage. Apart from the traditional lock, the locker can be fitted with a combination lock or an electronic one. Lockers are available as 40H and 50H modules, 800 mm in width.

CARGO
STORAGES

Apart from serving as a pedestal, **CARGO** storage can also work as a desk pedestal or a side panel. Thanks to various configuration options, it can be combined in systems, eliminating desk legs. **CARGO** enables clear organization of office space and it gives it a clear structure.

The top shelf includes pencil tray. The internal structure of a **CARGO** unit divides the space into two equal parts. The spaces between the shelves allow storage of file binders in rows. The base is equipped with rollers which facilitate opening (pulling out) of the internal part of the unit.
STANDARD
PRO AND GLOSS
PEDESTALS

A pedestal is a necessary component of any work station. In the **PRO** and **STANDARD** lines, there are groups of fixed pedestals aligned in height with the desk, and mobile pedestals which can additionally be fitted with a cushion, doubling up as a seat. The colour scheme of pedestals perfectly matches **PRO** and **STANDARD** ranges.

KRT – metal drawers
separate pencil drawer

- To reinforce the structure, an additional roller in the pedestal is designed for versions with a bottom drawer with a file hanger
- KRT pedestals have a separate pencil drawer, and KDT pedestals have a plastic pencil tray in the top drawer
- All pedestals are by default fitted with metal drawers with a central lock and a foldable key, Anti-tilt mechanism and a silent closing system
- Suspension file drawer can be adjusted in width to fit any folder size; 100% extraction
- Castors with breaks
- STANDARD line includes pedestals with an extended top playing a role of a link and expanding the work surface

KDT – metal drawer
pencil tray

STANDARD
PRO AND GLOSS
PEDESTALS

Pedestals come in two basic versions: mobile pedestals of 586 mm height and fixed pedestals of 740 mm in height. Mobile pedestals are available with either 4 or 5 castors. Fixed pedestals have four level adjusters. Pedestals come in two depths: 600 and 800 mm.
